

Custom-Code

WINSOR of the quarter-mile Sprint at this year's national, **Custom-Code** is offering a substantial discount on its range of engine management upgrades over the weekend of June 21-22. To be the most advanced software available, the smoothest, most powerful and most reliable in the market today, Custom-Code remaps are available which offer real gains in both power and fuel economy. Custom-Code remaps are available for a wide range of turbocharged applications, including VW, Audi, Honda, and many others. Custom-Code conversions can now also be switched between petrol and diesel engines. Those with petrol engines can switch between up to three different custom settings program, available free of charge on the website, while owners of diesel-engined cars can switch between up to three different

Custom-Code upgrades are made by reflashing the ECU using specialised hardware and software systems, with no need for port programming tools allowing the ECU to be upgraded without having to solder the EPROM chip. The remap plugs directly into the on-board diagnostics and will reconfigure most ECU types in under

It is that all customers having a Custom-Code remap undertaken at GTI International will not only get a discount but will also get a free run down on a test track to test their new-found performance.

Drivedata DR2 video recorder

DRIVEDATA, the UK's leading independent designer and manufacturer of professional video and data recording systems has launched a new digital video recorder, the DR2.

Designed for use in a variety of automotive, autosport, motorcycle, aqua and other sports applications, the DR2, compact (125 x 80 x 25mm) and weighing only 230g, uses solid state recorder technology and has MPG/AVI recording capability at the maximum resolution of 720 x 576 at 25 fps. It also includes the option to record in two formats – MPEG2 for DVD and MPEG4 for web applications and video streaming. The DR2 records directly onto a compact flashcard and is capable of over 2 hours of footage on an 8 Gb card.

The DR2, along with a range of accompanying mounting systems, is available from selected stockists or via the www.drivedata.com website or by calling 08707 60 70 44.

Pipercross filter for 2.8 V6

A RECENT ADDITION to the range of **Pipercross** performance air filters is a unit suitable for the Golf and Bora 2.8 V6 04/1999 onwards.

Part No. PP1389, retailing at £34.85 inc VAT, it uses a reticulated foam filter element to provide increased airflow compared with standard paper filters and also offers a longer service life, outlasting a paper filter many times over without having to be replaced or cleaned. A straight DIY replacement for the original, the Pipercross filter is also claimed to provide a small increase in performance. Tel: 01604 707 750 or visit the website at www.pipercross.com

Wolf Venom

WOLFRACE HAS launched a new range of alloy wheels in a variety of styles of alloy wheels including the new Venom and Venom. The Venom, available in 17" and 18" diameters, 7 x 17" and 7.5 x 18" diameters, features a combination of black and polished finishes, a polished finish, a polished centre cap and new design. The suggested retail price for the 17" is £79.95, with the 18" at £112.95.

The Venom, available in 17" and 18" diameters, 7 x 17" and 7.5 x 18" diameters, is similar to the black and polished finish, with the black and polished finish into the inner rim area. The suggested retail price is from £112.95.
